

To Whom It May Concern,

In recent months we have had the privilege of working with Alliant Communications, Inc. with the upgrade of our communications equipment. We now have an entire network of telephones spanning five locations that work together to improve our efficiency and increase our ability to deliver good customer service.

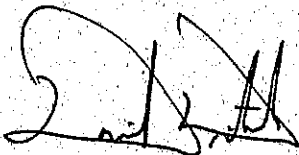

We found Alliant Communications, Inc. to be very professional in all areas from product selection of our ShoreTel phones to quick installation without distraction to our daily routine. The training session was very informative and everyone we worked with was very knowledgeable, helpful and responded quickly to any questions or changes we needed.

The ShoreTel telephones are easy to use and they operate very well with Outlook which enables you to have access to your contacts anytime you want to make a phone call. We also found this to be extremely useful for us in communicating with our offices in other cities. When we expanded recently, Alliant Communications, Inc. was able to accommodate us by upgrading our new office which makes it easy to transfer calls, send calls to voicemail and communicate with our other employees.

Alliant Communications, Inc. has proven to be efficient and friendly and their quick response to our needs has been second to none. I highly recommend Alliant Communications, Inc. to anyone that wishes to have a top quality product backed by reliable service.

We are pleased to consider Alliant Communications, Inc. as one of our preferred vendors. Their quality service and dependability makes it easy for Basin Disposal, Inc. to recommend Alliant Communications, Inc. to anyone in the market for communication services.

Sincerely,

Darrick Dietrich  
General Manager
